## *Sabre & Attila*

I think they are amazing for pets. I haven't had to apply flea/tick treat on my dogs since July (I was doing it monthly using Advantix) and they haven't had one flea on them :) but the best part is my dog isn't limping from pain anymore. Over Xmas we were at my parents farm and she was running around crazy and was perfect. *Renee Zietek. March 2013. (FB)*

*Jasper*

**I found that fleas aren't a big problem anymore and I haven't had as many problems with Jasper's leg. Jess is pregnant at the moment and she's stayed healthy and well. *Katelyn Devonshire February 2014 (Facebook)***

**I wish I knew of amber back when Sabre had her 1st surgery. I think it will help Rex heaps.**

**Sabre (on the right) at 9months old had Bilateral Arthroscopy surgery done for Elbow dysplasia. At 12 months she had TTO surgery done on her right knee and at 3yrs old she had TPLO surgery done on the left knee, which didn't heal too well, even after year she was still limping. Then we purchased an amber collar and within weeks she wasn't limping :)**

## *Rex*

**After hip operations and suffering from arthritis at the age of 12 he seems to be walking with a lot less strain. I am a true believer that his amber collar has definitely relieved some pain for Rex.**

*Leigh Crtchlow. February 2014 (Facebook)*

Dear Cassandra,

I would like to thank you so much for all your help and support with your wonderful amber jewellery. As I explained to you how ill I was feeling with on going severe pain and headaches after two lots of major surgery to my neck I could see by the look on your face that you really cared. I thought having nine pins, metal plates and six screws in my neck my problem would improve, but that was not the case. After three hours from putting the necklace on I started to feel relief. As you know I was desperate to get rid of the pain. After that I thought I would get collars for my dogs. One has bad skin condition and allergies. He is a lot happier and not scratching nearly as much as he was. The other has respiratory problems, and she is a lot better than she was. The coughing has settled so much. Finally, the bracelet. Being a craft person the last thing you want is arthritis. Well, once again your Amber Therapy jewellery has worked wonders. Thank you so much for all your help.

Kindest Regards,

Susan

**Hi Cassandra... While visiting Bundaberg over Christmas I bought an amber necklace for myself at your market stall. We spent a lot of time asking questions and making you unpack every style you had. Just loved it and wear it all the time.**

**During my stay my little dog Elton hurt his left back leg and was limping obviously in discomfort. Elton's right leg sufferers from a long time injury also so I was very concerned about his ability to ever enjoy his daily walks. After reading the benefits, I thought I'd buy him an amber dog collar... Being a little sceptical I wasn't sure if it would have any benefits to give him a painless journey but he has worn it ever since. Now after 4 weeks his healing has been amazing and he walks and runs with joy with no limp or discomfort in both legs and I also notice there is never that doggy smell. I'm amazed and really believe that this has helped him gain his silly dog energy back. I have no other explanation for this except that Elton wearing his collar has made such a difference and I will never take his amber collar off. Thank you for helping Elton get back on his 4 legs so he can run and jump and enjoy his happy life.**

*Elton*

**The girls are going amazing. Hannah (baby) has cleared up so well. She still cratches but only when she's frustrated. She has not been wearing mittens (or socks ) for a good four weeks now. That's both day & night. I can't thank you enough & everyone makes a comment when they see Hannah. I make sure I tell them about you and that you're in Bundy**

*Fiona, February 6<sup>th</sup> 2014*

**Still mitten free & no scratching even though she's had a cold & cut 2 teeth together. I can't thank you enough, our bracelets & anklets have been amazing.**

Hi, I'm from the UK and have recently been informed by friends that live in Bundaberg, that your neckless's for kiddies are excellent in the fight against eczema. I have a little 2 year old girl that suffers quite badly from eczema and would love to know whether you guys could sell me a neckless and post it to me. Hope to hear from you soon thank you in advance .

*James McLaren July 14 2013.*

All fits great, we're all very happy with everything we've bought off you. I've spread the word too.

*James*

Hi Cassandra, would just like to say there has been a great difference in not only Lola's skin but mine too. thank you. *James McLaren.*

*August 24 2013 (Face book)*

Cassandra I just had word from another happy customer in the UK, James said his daughters skin has completely cleared up and she's much happier thanks to your Amber and other stuff. Great news!

*Becky Spruce. October 12, 2013 (Face book)*

**Thank you ssoooo much Cassandra  
for my beautiful custom pieces.  
They arrived today & are even  
more beautiful in person, photos  
don't do them justice!  
I can't wait to see the look on my  
girls faces when they open them.  
Pity not my size because I want to  
wear them all myself  
Thank you thank you thank you!!  
Absolute pleasure to deal with you.**

**My son is going really good, he hasn't had breakouts on his face in ages. He still gets a bit here and there on his body from teething but the skin only feels rough, it doesn't get red and itchy. Very happy.**

*Attila*

**Attila with his Amber Collar. Best investment, had them for well over a year. Havn't seen one flea on them, and our girl has been limp free since wearing it too! They look great and work!**
